

I am asking the FCC to oppose or withdraw any rulings that would weaken Indiana's law on no calls from business' even if I have a business relationship. No one wants unlimited calling from ANY business at all hours, every day, any day. Let's use common sense, and force business's to respect the time and privacy that we all cherish. Case in point: I may hire a lawyer but I dont want him calling me in some unlimited fashion for any reason. He wouldnt be myu lawyer very long if he did.
